I attached it to my opinion in the interest of family. I explained to which denomination this law is based. We went back to the sources of this law and the notes that explained it. I looked closely at the meanings that the words of law could contain through semantics. Preserving the family in which the spouses are happy with a peaceful life is one of the purposes of the noble Sharia, otherwise its loss is corruption for society, so the provisions of divorce and judicial separation and its effects were clarified, following the comparative jurisprudential approach with the explanation of the articles of the Syrian Personal Status Law in force for the year 2019 AD related to this and clarified with the study Some of the decisions of the Syrian cassation chambers to achieve stability and show the provisions of divorce when needed, indicating the doctrinal document for each article without elaboration with clarity and a statement of the most likely to build the strength of evidence and knowledge of the purpose behind it.
